CAMPAIGN IN EARNEST IS ON

Y. M. C. A. Canvassers Put Vim
Into Their Work for the
Good Cause.

TOTAL NOW NEARS \$40,000

Volunteer Forces Will Be Brought
Into the Firing Line
Today.

In his talk to the men gathered at the Y. M. C. A. building campaign headquarters at noon yesterday, George R. Carter remarked that the present was without doubt the only chance people would have to contribute to the fund for Honolulu, as it was proposed to have a building that would in all probability do well for fifty years to come and perhaps longer.

There were more than fifty men for the lunch at headquarters, and a good many more dropped in for a social call or to see "what was going on." Reports for the work of soliciting contributions in the first twenty-four hours of the actual campaign were made. The list showed a total of \$13,328, as follows:

Co. A—Geo. R. Carter.....	\$1525
Co. B—R. H. Trent.....	1850
Co. C—J. P. Cooke.....	1150
Co. D—Geo. F. Davies.....	3675
Co. E—F. C. Atherton.....	1535
Total.....	\$9735

Div. 1—Geo. H. Angus.....	\$1285
Div. 2—A. L. Castle.....	260
Div. 3—C. S. Crane.....	255
Div. 4—F. D. Lowrey.....	480
Div. 5—W. T. Schmidt.....	495
Div. 6—Geo. S. Waterhouse.....	670
Total.....	\$3445

Rustlers—J. C. Anderson.....	\$ 123
Hustlers—C. J. Hunn.....	25
Total.....	\$ 148

These added to the \$34,255 of the first day brings the grand total actually filed as pledged up to \$47,583.

NIPPON WANTS HAND IN PIE

Insists on Being Consulted in
Regard to Manchurian
Railway Work.

(By Associated Press.)

PEKING, October 14.—Japan has submitted a letter to the Imperial Chinese government, stating that she will insist on her right to be taken into consultation in regard to all matters pertaining to the reconstruction and maintenance of the Manchurian railway. The letter was received here yesterday.

This has been one of the moot points and the letter shows clearly that the Japanese intend to press their claim for consideration in all matters affecting Manchuria.

ONE WHISTLE BLAST MEANS A CONCERT

If Secretary of War Says Yes Honolulu
Will Hear More Music.

If you hear one, long blast of the time whistle at nine o'clock this morning you will know that the secretary of war has cabled authority to the army quartermaster of the transport Thomas to delay her departure for Manila until daybreak Friday morning, in order that the Constabulary band may give another concert this evening at the Orpheum. Last night over three hundred people were turned away from the theater, and a second concert tonight would give opportunity for them and others to hear the famous band.

George C. Sellner, under whose direction the band has been making its tour of the mainland, cabled to the secretary of war yesterday asking that the transport be allowed to remain here an additional twelve hours. She was scheduled to leave here at 5 o'clock this afternoon. There is considerable hope that the troopship will be ordered to stay here tonight, as this is the last American city at which the band may play before returning to its regular duties in Manila.

The band has had a successful visit in Honolulu, last night's concert resulting in an enthusiastic ovation tendered by an audience which filled every part of the theater. So, if the hoped-for cablegram arrives this morning Mr. Sellner has arranged with the electric light people to sound the one, long blast.

POSTING THE RETURNS AT HEADQUARTERS.

Secretary Super turning on the hands of the clock to show that subscriptions in the Y. M. C. A. building campaign had passed the \$45,000 mark.

INQUISITORS INDICT MANY

GRAND JURY INVESTIGATING

Matters Considered Include Violation of Postal and Revenue Laws.

The federal grand jury, which is busy investigating into alleged violations of the laws of the United States, has found several true bills and the indictments will probably be returned into court some time today. Ten or a dozen cases have already been investigated, and in most instances indictments, it is known, have been found.

The most important matter before the inquisitors yesterday was the alleged violation of the postal money order laws. Nine or ten persons, mostly Japanese, are charged with this offense.

Moonshiners Under Fire.

The Japanese illicit distilling case, which some time ago caused considerable of a row on Kauai when it was charged that the county officials had allowed the defendant to forfeit his bail so the county could get the money, is also on the list for the grand jury's consideration. The defendant, Toyofuka, was arrested for selling liquor without a license, although it also appeared that he had been illicitly manufacturing the booze he sold. He was released on bail, and his case was continuously postponed until after July first, when the new law giving the county all the fines and costs went into effect.

The federal authorities heard of the case and United States District Attorney Breckons and Marshal Hendry went over to Kauai. Although the county authorities said the man had forfeited his bail and escaped, the federal officials found him at his own home within two hours from the time they landed, and put him under arrest. It was charged at that time that the moonshiner was being protected by the county officials so they could get the bail money for the county instead of having the fine go to the Territory, as it would have done had the man been tried and convicted before July 1.

Indecent Postals.

Another important matter which the grand jury is going into is that of the mailing of obscene postcards and other matter. A considerable number of Japanese are charged with this disgusting offense, and a bunch of indictments on that count is expected.

The case of Captain Tollefson and the schooner Rainbow has not yet been gone into, although the witnesses in the case have been subpoenaed and have been occupying chairs in the corridor, waiting to be called to give their testimony.

CRANE INCIDENT IS DECLARED CLOSED

State Department Will Issue No
More Official Statements
Concerning Matter.

(By Associated Press.)

WASHINGTON, October 13.—The Crane incident is closed, so far as the government is concerned. Despite the statement issued yesterday by the recalled minister, that he gave out the now famous interview at the express command of President Taft, the government has not made any change in its attitude. Yesterday, requests for information were met with the announcement that the incident was closed and that no more official statements would be given out.

FILIPINOS PAY HONOR TO QUEEN

"ALOHA OE" AS SERENADE

Famous Bandsmen Render Royal
Music Learned on First
Visit to Hawaii.

Never was a prettier or more appropriate tribute paid Her Majesty, Queen Liliuokalani, than that offered last evening when the Philippine Constabulary band marched out to Washington Place to play the Queen's own composition, Aloha Oe.

The Queen first received Captain Loving and Mr. Sellner, the manager of the band, who informed her that the men of the band had learned the piece from hearing it played while here last February; that each of the eighty-six men had written his own orchestral part for his individual instrument, and that they had asked to be allowed to render it for her.

Her Majesty thanked them in a most gracious manner, and Captain Loving stepped down, raised his hand, and the first notes of the plaintive melody of Aloha Oe were carried out among the palms. Her Majesty's face lighted up with a pleasant smile, and throughout the piece she sat with clasped hands, listening intently until the last low note had died away, when she warmly applauded.

After the Hawaiian selection the Filipinos played a melody of their own native music, to which the Queen was an

QUEEN LILIUOKALANI, WHO YESTERDAY RECEIVED THE FILIPINO BANDSMEN AND WAS SERENADED BY THEM.

TOURIST TRAFFIC PROSPECT BRIGHT

WINTER TRAVEL WILL BE BIG

Raymond-Whitcomb Agent Says
Honolulu Will Get Large
Share of It.

"Travel everywhere is increasing so fast the transportation companies are looking for big business and it is almost certain that there will be quite an increase in tourist travel to your beautiful Islands. Naturally we try to send tourists there."

This is an extract from a letter from R. Neidlinger, general agent of the Raymond-Whitcomb Excursion people at Chicago, in a request to Secretary Wood of the promotion committee for more literature on Hawaii.

The promotion committee mail this week contains many requests for detailed information concerning opportunities for earning salaries here. Carpenters and hotel men are asking about the situation and size of pay. Some young women in Los Angeles want to know the possibilities for trained nurses and stenographers. Other inquirers want to know about the family boarding houses and cottages, furnished and unfurnished, presumably for winter occupancy. A Santa Rosa, California, schoolteacher wants a lot of local literature for use in her school.

Acting Secretary Cooper has been advised by Harry Mist, designer of the 1910 floral parade poster, that the lot was to be shipped from Bremen on September 28. They will go to San Francisco via Tehantepec, and coast distribution will be made from that city.

DEADLY STUFF IS SOLD AS WHISKY

Fusel-Oil and Other Poisonous
Drugs Are Passed Out
Over Bars.

PURE FOOD LAW MAY APPLY

Authorities Start on Crusade
Against Dispensers of
Bad Liquors.

Concentrated fury is being sold in Honolulu under the guise of whisky. Some of the stuff is labeled imitation or artificial whisky and is sold as such, but in other instances fearsome concoctions are being dispensed without any pretense at explaining the true nature of the product.

It is charged that fusel-oil in large quantities is being used to make up the mixture that passes muster as whisky in the cheap saloons. Fusel-oil is the volatile oil formed in the distillation of certain kinds of whisky and its chief legitimate use is in the manufacture of horse liniments. This oil is rank poison and taken even in small quantities produces headaches, unnatural thirst and other disagreeable symptoms.

In the manufacture of certain of the imitation whiskies, this oil is added in order to supply the whisky effect. Alcohol, of varying purity, supplies the intoxicating element, burned sugar furnishes the color, and sundry other wonderful elements mixed up make the finished compound.

Wholesale and Retail.

Where this mixture is sold by reputable wholesalers, and there are some wholesalers generally classed as reputable who are dispensing the stuff, the barrels are labeled in such a way as to make it plain that the genuine distillation is being sold.

MONEY ASSURED FOR UPKEEP OF FORTS

Comptroller Rules That General
Fund May Be Drawn on
for Hawaii.

(By Associated Press.)

WASHINGTON, October 14.—Of far reaching importance is the decision, rendered by the comptroller of the treasury yesterday, that money may be taken from the general fortification fund for the repair and supply of the fortifications on the island of Oahu, Territory of Hawaii.

Whether or not the general fortification fund could be diverted to such ends has been a moot point among the military authorities and the ruling of the comptroller has been anxiously awaited. Through this decision ample money is assured for the necessary repairs to the fortifications in Hawaii, and also for the supplying of the forts.

PEARY REITERATES CHARGES OF FAKE

Cook Responds That He Has His
Witnesses to Prove He
Reached Pole.

(By Associated Press.)

NEW YORK, October 13.—Commander Peary is firm in his contention that Doctor Cook is a colossal faker and insists that the doctor did not reach the North Pole. The naval engineer yesterday issued a statement to the effect that he can produce evidence of a trustworthy nature to prove the truth of his claims. He added that the testimony of Eskimos will show Cook up.

BUFFALO, October 13.—Doctor Cook has accepted the challenge of Commander Peary. He says that he can and will produce Eskimo witnesses who will prove conclusively that he did reach the northern goal. He insists that all of his records will be verified by the Eskimos who accompanied him.

PRIMARY BALLOT IS BEING RECOUNTED

(By Associated Press.)

SAN FRANCISCO, October 14.—Yesterday the work of recounting the votes cast in the recent Democratic primary was begun. The recount was ordered at the instigation of Fickert, the defeated candidate for the district attorneyship on the Democratic ticket. Fickert made the claim that he was not fairly treated and insisted that the ballots should be gone over again. Fickert's supporters are confident that their candidate was the choice of the Democratic party and are very confident as to the outcome of the recount. Should Fickert's claims prove well founded, the claimant will be declared the regular nominee of the Democratic party for the district attorneyship.

TROOPS CHARGE RIOTERS IN PARIS

Great Demonstration in Protest
Against the Execution
of Ferrer.

GENDARMES ARE POWERLESS

Men and Women Are Crushed
When Cavalrymen Ride Into
Raging Mob.

(By Associated Press.)

PARIS, October 14.—Ten thousand persons yesterday took part in a demonstration when word was received from Barcelona that Francisco Ferrer, the great educator who was tried and convicted of being a revolutionist, had been executed.

News of the execution acted as the breath of wind which fanned the smoldering fires of revolt among the malcontents into a blaze. Soon the streets were alive with rioters. Bodies of desperate men and women marched along demanding vengeance for the killing of Ferrer. Gendarmes were powerless to preserve order.

Finally it became necessary to cut out the troops, so desperate had the condition become. Bugles sounded through the city and soon the streets in quarter where the trouble had broken out resounded to the beat of iron hoofs. Even in the face of the soldiers the rioters did not falter. Repetitions to disperse were unheeded.

Finally the officer in command of troops gave the order to charge. Mounted men dashed down upon struggling mass of rioters. Horses rode into the midst of the throng, and women were trampled under. For a few minutes the scene was of wild disorder. Then the riot broke and the crisis was past.

JAPAN DEMANDED CRANE'S RECALL

Rumor in Peking Credits Tokio
With Hand in Troubles
of Diplomat.

(By Associated Press.)

PEKING, October 14.—Japan requested the recall of Minister Crane. This is the report current here in well informed circles and it is generally accepted by those in close touch with affairs. Crane's utterances were very distasteful to the Tokio authorities and it is generally believed here that representations were made to Washington that the presence of Mr. Crane in the Orient would not be desirable.

The whole affair has caused considerable talk here. The recall of Crane to Washington caused more than a little surprise, and the report, coming on top of that, that the recall was brought about through the interference of the Japanese authorities has set the gossips to talking.

PRESIDENT OFF FOR THE GRAND CANYON

Urges Statehood for Arizona
and New Mexico in
Phoenix Speech.

(By Associated Press.)

PRESCOTT, October 14.—President Taft and the members of his party left here last night at 7:30 o'clock for the Grand Canyon of the Colorado. The party will reach the Grand Canyon at 9 o'clock this morning.

Yesterday the President delivered a stirring speech at Phoenix, in the course of which he declared that he is in favor of admitting the Territories of Arizona and New Mexico to statehood. The speech was greeted with resounding applause and it made a very evident impression on those who were present.

NICARAGUA AGAIN IS IN GRASP OF REVOLT

(By Associated Press.)

BLUEFIELDS, Nicaragua, October 13.—Nicaragua is again in the throes of revolution. Juan Estrada was yesterday chosen leader of the revolutionary party and an attempt will be made to depose President Zelaya. The revolutionary party is strong and determined and serious trouble is feared.
